

You are invited

BUPRENORPHINE/NALOXONE Treatment of Addiction Program

April 20 – Grand Falls Windsor (GFW ROOM Education Room 119)

May 5 – Corner Brook (Western Memorial Hospital)

May 12 – St. John's (Location TBA)

June 30 – Happy Valley Goose Bay (Location TBA)

Learning Objectives: At the end of the Suboxone Advanced Training Program, participants will be able to:

- *Explain the basic features of opioid dependency as outlined by the DSM 5*
- *Recognize the patient with an opioid use disorder (OUD) and decide if opioid replacement therapy (ORT) with Buprenorphine is appropriate and safe for that patient.*
- *Initiate treatment with Buprenorphine adhering to prescribed induction protocols.*
- *Watch for common and uncommon adverse events seen with buprenorphine/naloxone and potential drug interactions.*
- *Evaluate the stability of a patient on ORT with Buprenorphine using the clinical interview and urine drug screen (UDS)*

Presenters: Dr. Peter Barnes, Dr. Stephen Darcy, and Dr. Bruce Hollett

Registration Fee: \$50

Registration portal: <http://nlma.nl.ca/nlma/forms/sad>

This is a half-day day session. Lunch is included.

Accreditation (4 CME hours).
