Quick Response

eConsult improves primary care providers' (PCP) access to specialists' advice by facilitating electronic communication to get clinical questions answered

PCPs can ask a clinical question & get a response from a specialist within 7 days!

A 2018 survey of eConsult users found that...

- 68% of cases did not require a face-to-face visit with the specialist
- 59% of cases where a referral was intended, a referral was avoided
- 90% of PCPs say it's a faster way to provide advice
- 96% of PCPs placed high value on the eConsult service

"It has already dramatically changed the way I practise and I am convinced it is leading to better outcomes." - eConsult user
