St. John's, NL

Dear Colleagues,

Re: Section for Academic Physicians

This letter is submitted in application for the establishment of an Academic Physicians Section, in accordance with Chapter 17.1.2 of the NLMA bylaws. The section would include NLMA members who provide services to Memorial University.

Memorial University has expressed its intention to restructure the compensation system for academic physicians in the coming months. We believe that non-management physician faculty must be strongly represented with a collective voice through negotiations, by the NLMA. Organizing as a section under the NLMA bylaws will help the NLMA to represent our interests by creating a formal structure for engagement and input. Over time, the section may also take on other activities and supports for this group of members.

The physicians who have signed this letter volunteer to act as an interim executive until a formal executive is established, to start the work of the section and support preliminary negotiations work.

Yours truly,

NAME:

George Fox
