President's Letter

March 7, 2014

Urgent: On-Call Data Collection Survey deadline

Yordan Karaivanov, MD President

Dear Colleagues:

In February, all practicing NLMA members were sent and asked to complete the *On-Call Interaction Form* as part of a joint NLMA/DHCS On-Call Data Collection Survey. The results of this data will be utilized to distribute approximately \$4 million in unallocated on-call funding for the Fiscal Year 2012/13 ending on March 31st. We are now more than halfway through the timeframe of the survey and many rotas have not submitted any data.

As we approach deadline of **midnight March 11, 2014**, we ask that all physicians providing call submit their completed forms as soon as possible. Please ensure that all fields on the *On-Call Interaction Form* are completed. Physicians are also asked to complete and submit the form even if no interactions have occurred (e.g. record zero interactions). Please refer to the *On-Call Interaction Form* for criteria on which types of interactions should be captured.

The On-Call Interaction Form and instructions are available for download (PDF). Forms can be returned by mail in the self-addressed stamped envelope provided to NLCHI, scanned and emailed to oncallsurvey@nlma.nl.ca or faxed to (709) 726-7525.

Regards,

Yordan Karaivanov, MD

25 Cervaur

President

Am

Newfoundland & Labrador Medical Association 164 MacDonald Dr. St. John's, NL A1A 4B3 (709) 726-7424 or 1-800-563-2003 Fax: (709) 726-7525 or 726-7456 www.nlma.nl.ca president@nlma.nl.ca

A joint committee of the NLMA and the Department of Health and Community Services (DHCS) is studying new models to compensate on-call physician coverage in the province. One of the ideas is to use a measurement of "interaction intensity," in addition to "on-call availability," to calculate on-call compensation. The committee is now assessing the feasibility of this approach.

This survey is intended to capture data that can be used to measure *Interaction Intensity* for all FFS and salaried physicians who do on-call. For the purposes of this survey, the interaction intensity of call will be captured by measuring the following communication methods — telephone, email, text, and face-to-face interactions. The survey does not capture activities that are billable under the FFS system.

This survey will capture *Interaction Intensity* on a real-time basis for a two week period starting on **Wednesday, February 26, 2014** and is being administered and analyzed by the NL Centre for Health Information in order to maximize the validity and overall quality of information.

You are asked to record all interactions during your call period as accurately as possible on the attached *On-Call Interaction Data Form*.

Please follow these instructions when completing this survey:

- 1. Provide the requested data for every interaction (e.g., phone call, email, text, face-to-face dialogue) that occurs during on-call, is initiated by another physician (or a nurse practitioner or nurse in a remote area) and does **not** include interaction with the patient.
- 2. Do <u>not</u> include interactions related to your own in-patients or in-patients of your colleagues in the same service.
- 3. Do **not** include procedures and consultations performed while on-call or travel time to and from health facilities.
- 4. For greater clarity, do **not** include activities of the kind that are normally billable FFS.
- 5. After you finish <u>each</u> on call shift, return the completed form in the self-addressed envelope provided **or** scan to email oncallsurvey@nlma.nl.ca.
- 6. If you are on-call more than once during the survey period, you must send a **separate** form upon completion of each on-call period (i.e. one form per call shift). These forms should be returned after each on call shift. Please do not hold the forms once completed.

Additional forms should be requested directly from your on-call coordinator.

If you have questions or require clarification, contact <u>oncallsurvey@nlma.nl.ca</u> or call Tamie L. White, Senior Compensation & Benefits Analyst, NLMA Office (709) 726-7424, ext. 313 or 1-800-563-2003, ext. 313.
