---

February 10, 2023

Dear colleagues,

I am an Allergist and Clinical Immunologist announcing the opening of my practice in Gander, NL. My clinic will be based out of the Internal Medicine clinic space at James Paton Memorial Health Centre. The clinic will focus on Allergy & Immunology concerns.

I completed my Allergy & Clinical Immunology fellowship in June 2019 in Winnipeg, Manitoba. My General Internal Medicine residency training and medical school were completed at Memorial University, St. John's, NL in 2017 and 2014 respectively. I have additional training in Occupational Medicine with associate level certification from CBOM as of June 2022. Prior to entering medical school, I was a hospital and compounding pharmacist.

I am currently accepting referrals in allergy and immunology for adult patients with an anticipated start date of February 28, 2023.

I accept consults for environmental / food / animal / medication / vaccine / venom allergy assessment. Other areas of focus include oral food challenges, asthma, atopic dermatitis / eczema, oral allergy syndrome, chronic hives / urticaria, all cause angioedema, any concerns with immune system and all immunodeficiencies.

I plan to start immunotherapy and patch testing later in the spring of 2023. Additionally, I will consider travelling clinics in the future including penicillin allergy de-labelling clinics across the province for adult patients if the demand exists. I may attend to occupational medicine consults for respiratory and allergy concerns on a case by case basis as needed. If you would like a younger patient seen, please contact me directly to review the case or consider one of my esteemed allergy colleagues across the province with a pediatric background.

I look forward to working with everyone.

Sincerely,

A handwritten signature in black ink, appearing to read 'Mouris', with a stylized flourish above the name.

Dr. Jacqueline Mouris
