Dear Colleagues,

I have been practising General Internal Medicine at Dr. G.B. Cross Memorial Hospital since 2021. I am pleased to announce the opening of my medical practice and clinic, PulsePoint Medical Group. I would be happy to accept new referrals for a range of clinical conditions including:

- Vascular risk factor modification
- Hypertension
- Diabetes
- Lipid disorders
- Coronary artery disease
- Heart failure
- Atrial fibrillation / arrhythmias
- Chronic kidney disease
- Liver disease
- Hepatitis C
- Perioperative optimization
- Other medical conditions within the scope of general internal medicine

The clinic will also be offering ECGs, and pending government approval, exercise stress testing and Holter monitoring.

I will not be accepting referrals for pain management, chronic fatigue, inflammatory bowel disease, rheumatologic or neurologic disorders.

All referrals can be faxed to the above number, or sent to the above email address.
