Now Accepting New Patient Referrals for “Non-Acute” Problems in Respiriology / Respiratory Medicine

I have been practicing in Respiriology / Respiratory Medicine in St. John's since 1992, and I am excited to announce the opening of my new office practice.

Please do not send referrals for Urgent / Acute issues that may require hospital-based procedures (bronchoscopy, thoracentesis, chest tube, etc...) such as suspected lung cancer, new or enlarging lymphadenopathy, hemoptysis, and/or pleural effusion.

All other New Patient Referrals in Respiriology / Respiratory Medicine accepted.

Please see contact information above.

A handwritten signature in black ink, appearing to read 'George A. Fox', with a long horizontal flourish extending to the right.

George Fox P.M.C., MD, MSc, FRCPC, FCCP
