April 15, 2026

Dear Colleagues,

My community psychiatry practice (Dr. Kurt Moyst Psychiatry Clinic) will be closing permanently on July 31, 2026. As such, my policy for new referrals from this time forward is as follows:

- 1) I will continue to accept consultation-only referrals until July 3, 2026. For these, I will provide diagnostic clarification and management recommendations. There should be no expectation of ongoing follow-up.
- 2) Acceptance of any referral submitted after July 3, 2026, should not be expected. This date was chosen based on historical referral rates to ensure that all accepted referrals are managed prior to practice closing.
- 3) The assessment service for a queried Attention-Deficit/Hyperactivity Disorder remains suspended.
- 4) As previously advised, I am unable to accept referrals for the assessment of a queried Autism Spectrum Disorder, patients with a primary diagnosis of substance use disorder or an eating disorder, complex geriatric patients or complex pediatric patients. These referrals are better suited for specialized clinics.

It has been an absolute pleasure providing a community psychiatry service over the past two years. For those of you who have referred to me, please accept my deepest gratitude for involving me in your patients' care.

Dr. Kurt Moyst, Psychiatrist
