

## **Specialist Physician Opportunities – Centre of Health Excellence (CHE)**

The Centre of Health Excellence is expanding and welcoming **Specialist Physicians** interested in establishing or relocating an ambulatory practice. We are seeking expressions of interest from specialists in outpatient disciplines.

The CHE is a clinically guided organization designed around **increasing access** to care for patients across Newfoundland and Labrador. Our model provides physicians a clinical environment that include:

- **Team-based care** (*RN/LPN/Medical Technician*)
- **Technology-enabled workflows** (*EMR, AI tools, patient-management systems*)
- **Standardized, efficient processes** (*reduced physician admin burden, improved patient access*)
- **Flexible practice models** (*flexibility around scheduling and commitment*)
- **New methods of care** (*work with physicians to expand patient care options*)
- **Full clinic solution** (*front and back-office support for optimized efficiency*)

**NEW:** CHE is developing a **large, modern clinic** at the **Unity Health Centre** (28 Stavanger Drive), adjacent to the NLHS Ambulatory Health Hub. The CHE clinic will be purpose-built space for specialty medicine and advanced programs will be available.

To discuss specialty opportunities or learn more about the CHE's model, contact: **Stephen Ash – sash@theche.ca**
